

Market Efficiency Process Enhancement Task Force Phase 3 Update

June 24, 2019

Issue Summary

PJM has conducted multiple ME cycles (2014/15 and 2016/17) since implementing Order 1000 processes. The mission of the Market Efficiency Process Enhancement Task Force is to discuss challenges and opportunities for improvements that have become evident as a result of these ME cycles.

1. Phase 3 Meetings

a. April 12, 2019 and May 10, 2019

The MEPETF focused on incorporating the language from the IMM problem statement into the MEPETF charter, so the task force could work on these issues in Phase 3.

Education related to the Phase 3 topics was provided to the task force.

b. June 7, 2019

Because the facilitation team was receiving mixed signals from the MEPETF on the desire to explore an option for a new intra-regional market efficiency process, a non-binding poll was conducted between the May 10, 2019 and June 7, 2019 meetings. The poll results showed a majority of the group in favor of exploring the new process.

Further education on Phase 3 topics was provided to the MEPETF. The IMM provided some additional information on what issues they see with the current Benefit-to-Cost analysis used for Market Efficiency projects.
