

## High Voltage Direct Current Senior Task Force (HVDCSTF) Monthly Progress Report

July 20, 2020

### 1. Integration of HVDC Converter as a New Type of Capacity Resource

#### **Issue Status**

The High Voltage Direct Current Senior Task Force (HVDCSTF) is currently in the education and Interest Identification phase.

#### **Target Completion**

The HVDCSTF is expected to complete by end of 2020 with a target of MRC first read in January 2021.

#### **Progress Update**

HVDCSTF held its first meeting on July 13 to kick off the senior task force. The problem statement, issue charge and work plan were reviewed at the meeting. SOO Green, the issue source, provided an education on the technology behind HVDC Converter Station. PJM also provided educational presentations on current requirements for an internal capacity resource and pseudo tie resource. At the July 13 meeting, Stakeholders also identified their interest as the first step in the CBIR process. The updated matrix has been posted to the Task Force website.
