

System Operations Subcommittee Update

Donnie Bielak
Sr. Manager, Dispatch
Operating Committee
December 7, 2023

- PJM SOS Summary
 - 1 Shared Reserve Event
 - 2 Synchronized Reserve Events
 - 22 PCLLRW Events
 - 5 Non-Market PCLLRW Events
 - 2 High System Voltage Events
 - 1 Geomagnetic Disturbance Warning Event

- [Update on the latest and upcoming eDART release](#)
- [Update on items discussed during the last DTS meeting](#)
- [2023 Winter Emergency Procedures Drill Review](#)
- [Cold Weather Preparation and Black Start Calculator](#)

- SOS Charter annual review (no changes/endorsed)
- Security Briefing
- Reliability Compliance update

- Reviewed IROL load shed drill results
- Discussed next steps for the restoration plan approval notification process
- Reviewed updates associated with Manual 3B, Rev. 64.3
- Discussed voltage reduction procedures and testing
- [OM-32: Look Ahead Generation Commitment for the BC-PEPCO Area publically posted](#)

- M-13 Section 6.4 “Resource Limitation”
 - Report to PJM through the “Resource Limitations” page of Markets Gateway
 - Request a call to the PJM control room to notify dispatchers
 - Guidance for utilizing Maximum Emergency status
- M-13 Attachment M: “Procedure for Obtaining a Temporary Environmental Variance”
- In the event of a DOE 202C request, PJM needs very specific unit information to comply with FPA and DOE regulations
 - Federal and state emissions information
- PJM will reinforce this in Cold Weather Advisories, Cold Weather Alerts, and SOS Generation calls
