

# PJM Generation Dispatcher and Transmission Owner Operator Task List Updates

Michael Hoke, Sr. Section Lead

Dispatcher Training Subcommittee  
August 17, 2021

- Proposed changes to Generation and Transmission task lists
  - Changes impact TOO CS Task 5.4, TOO Task 9 and GD Task 7
  - Language updated to provide clarity
  - Does not require task reverification

## Current Conservative Ops Language (TOO Task 9 / GD Task 7)

**Terminal Task** Given the need for conservative operations, respond to PJM instructions and take appropriate action in accordance with PJM manuals

**Enabling Objective** Report events that would prompt PJM to adopt conservative operations

**Enabling Objective** Respond to PJM adopting conservative operations

# Proposed Conservative Ops Task Language

**Terminal Task** Given the need for conservative operations, respond to PJM instructions and take appropriate action in accordance with PJM manuals

**Enabling Objective** Respond to weather emergencies requiring conservative operations and take the appropriate action

**Enabling Objective** Respond to physical threats requiring conservative operations and take the appropriate action

**Enabling Objective** Respond to cyber threats requiring conservative operations and take the appropriate action

**Enabling Objective** Respond to geomagnetic disturbances requiring conservative operations and take the appropriate action

**Enabling Objective** Respond to high-altitude electromagnetic pulse events requiring conservative operations and take the appropriate action

## Current Task Language

**5.4 Company Specific Task** Given a PJM directive to shed load, explain how your company implements load shedding in accordance with company guidelines

## Proposed Task Language

**5.4 Company Specific Task** Given a PJM directive to shed load, explain how your company implements load shedding and **restoration** in accordance with company guidelines

- Language updated to provide clarity
- Does not require task reverification
