Re: Liaison Committee Meetings

Dear Chris:

This letter is to notify PJM of the Market Monitor's objection to the exclusion of the Market Monitor from meetings of the Liaison Committee (LC). The Market Monitor has determined that its participation in LC meetings is appropriate and necessary for it to perform its functions. The Market Monitor requests that PJM allow the Market Monitor to register for and participate in LC meetings, and in any other stakeholder committee meetings.

The PJM Market Monitoring Plan (Plan), OATT Attachment M § IV.G, provides:

The Market Monitoring Unit may, as it deems appropriate or necessary to perform its functions under this Plan, participate (consistent with the rules applicable to all PJM stakeholders) in stakeholder working groups, committees or other PJM stakeholder processes.

This language is repeated in PJM Manual 34, Section 4.3, at 22.

The scope of meetings that the Market Monitor may participate in is stated broadly to include all "stakeholder working groups, committees or other PJM stakeholder processes." The type of meeting is not limited to committees or to any particular type of committee. Excluding the Market Monitor violates the Tariff. Language in the committee charters excluding the Market Monitor does not overcome tariff rules and is unenforceable. Such language constitutes evidence of a violation.

The Market Monitor is preparing to file a complaint with the Commission. The LC is scheduled to meet on April 4. The Market Monitor seeks to register and participate in this meeting.

Christopher O'Hara, Esq.

Please let us know as soon as possible whether PJM will remove the barriers to Market Monitor registration and participation in the LC, or whether a conference call to discuss the issue would be useful.

Regards,

Jeffrey W. Mayes
