Kimberly Bose Secretary Federal Energy Regulatory Commission 888 First Street, N.E. Washington, D.C., 20426

Re: Commonwealth Edison Company and Commonwealth Edison Company of Indiana, Inc., Informational Filing of Formula Rate Annual Update Docket No. ER09-1145-000

Dear Secretary Bose

Attached for informational purposes in the above-referenced proceeding, please find the 2018 Annual Update of Commonwealth Edison Company ("ComEd"). This informational filing is required pursuant to the Settlement Agreement approved by the Commission on January 16, 2008 in Docket No. ER07-583, and Section 1(b) of the Formula Rate Implementation Protocols in Attachment H-13B of PJM Interconnection, LLC's ("PJM") Open Access Transmission Tariff ("OATT"). Under Attachment H-13B and the Settlement Agreement, on or before May 15 of each calendar year ComEd recalculates its Annual Transmission Revenue Requirement and submits an Annual Update for the upcoming Rate Year. *See* Attachment H-13B §§ 1(a)-(b). The Annual Update is to be submitted to the Commission as an informational filing each rate year.

The March 12, 2010 Letter Order accepting ComEd's 2009 Annual Update established the procedure for the Annual Update filings:

This letter also advises ComEd that annual updates in the forthcoming years should be submitted, for informational purposes only, in Docket No. ER09-1145-000. Upon receipt, the Commission will not act on or notice the informational filing because the formula rate implementation protocols provide specific procedures for notice, review, and challenges to the annual updates.<sup>3</sup>

<sup>&</sup>lt;sup>1</sup> Commonwealth Edison Co., 122 FERC ¶ 61,030 (2008) ("January 16 Order")

<sup>&</sup>lt;sup>2</sup> The protocols require that ComEd submit the Annual Update by May 15 of each rate year, unless the date for making the Annual Update falls on a weekend, then the filing may be made on the next business day. *See* ComEd Protocols, § 1.c.

<sup>&</sup>lt;sup>3</sup> Letter Order Accepting Commonwealth Edison Company's 5/15/09 filing of the 2009 Formula Rate Annual Update, Docket No. ER09-1145 (Mar. 12, 2010).

Attachment 1 to this Annual Update is a copy of the ComEd formula rate (Attachment H-13A to the PJM OATT) populated with 2018 inputs. This populated formula rate will be used by PJM to determine charges for service to the ComEd zone during the June 1, 2018 through May 31, 2019 rate period. A copy of this document in Excel format is being provided along with service of this Annual Update to the persons on the official service list in ComEd's last rate case, Docket No. ER07-583, as well as the Manager of Accounting of the Illinois Commerce Commission ("ICC"). ComEd has requested PJM to post this filing on the PJM website. As required by the implementation protocols, notice of an Annual Meeting to be held on May 25, 2018 also is being provided on the PJM website. The Annual Meeting will permit ComEd to explain the Annual Update and will provide interested parties an opportunity to seek information and clarifications about the Annual Update.

ComEd proposed certain modifications to its formula rate in Docket No. ER18-899, concerning accumulated deferred income tax amounts. On April 24, 2018, the Commission issued a letter requesting more information about those proposed modifications. Because the ER18-899 modifications have not yet been accepted, they are not reflected in this update.

#### I. Required Information

ComEd has prepared the 2018 Annual Update in a manner consistent with its protocols, as set forth in Attachment H-13B of the PJM Tariff, and reflecting the guidance issued by Commission Staff on July 17, 2014.<sup>4</sup>

Section 1(g)(iii) and (iv) of the Protocols and Section 4.7 of the Settlement Agreement identify certain information that is to be provided in the Annual Update. This information is provided herein and in the referenced attachments. Consistent with Commission Staff guidance, in addition to the PDF package, ComEd is submitting the formula templates and attachments/workpapers in Excel format, with the formulas intact. ComEd's protocols require that it provide "sufficient information to enable customers to replicate the calculation of the formula results," but ComEd has taken the extra step in this Annual Update to provide a description and supporting documentation for entries where the input is not taken directly from a referenced line and column entry in the FERC Form No. 1, consistent with the Staff Guidance. Additional information provided to be consistent with the Staff Guidance is included as Attachment No. 15.

#### **A.** 2017 FERC Form No. 1

In accordance with Section 1(g)(iii)(1), a copy of ComEd's FERC Form No. 1 is available for download through the Commission's elibrary, accessible at elibrary.ferc.gov. ComEd submitted the 2017 FERC Form No. 1 to FERC on March 30, 2018.

2

<sup>&</sup>lt;sup>4</sup> See Staff's Guidance on Formula Rate Updates, available at <a href="http://www.ferc.gov/industries/electric/indus-act/oatt-reform/staff-guidance.pdf">http://www.ferc.gov/industries/electric/indus-act/oatt-reform/staff-guidance.pdf</a>.

<sup>&</sup>lt;sup>5</sup> See Staff Guidance at 1 ("Format").

<sup>&</sup>lt;sup>6</sup> *Id.* at 2 ("Level of Support").

#### B. Changes to Formula References to the FERC Form No. 1

In accordance with Section 1(g)(iii)(2), ComEd has identified one change in the formula references to the FERC Form No 1. Attachment 2, which serves as the placeholder for this protocol item identifies this change. The change relates to a new depreciable asset sub-category related to FERC Account 397 – Communications Equipment which was added to FERC Form 1. Accordingly, the instruction for the calculation on Attachment 5, Line 88 of the Formula Rate which includes FERC Account 397 – Communications Equipment has been updated to include the additional FERC line item.

#### C. Adjustments to FERC Form 1 Data in Formula Inputs

Section 1(g)(iii)(3) of the Protocols requires identification of any adjustments to FERC Form No. 1 data in determining formula inputs. In 2012, the Commission approved the merger of Exelon Corporation ("Exelon"), which is ComEd's parent company, and Constellation Energy Group, Inc. ("Constellation") and their respective public utility subsidiaries. Exelon Corp., 138 FERC ¶ 61,167 (2012) ("Constellation Approval"). On November 20, 2014, the Commission approved the merger of Exelon and Pepco Holdings, Inc. ("PHI") and their respective public utility subsidiaries. Exelon Corp., 149 FERC ¶ 61,148 (2014) ("PHI Approval"). As part of their applications to the Commission for authorization to merge, the companies committed to hold transmission customers harmless for five years from costs related to the merger. The Commission accepted these hold harmless commitments. See Constellation Approval at P 118; PHI Approval at P 105. The five-year commitment to hold customers harmless from costs related to the 2012 Constellation merger expired in 2017, however ComEd has elected to continue to remove those merger related costs from the 2018 filing. Consistent with the hold harmless commitment for the PHI merger, no transaction-related costs or transition costs related to that merger are included among the costs to be recovered through the 2018 Annual Update. Accordingly, ComEd has adjusted inputs from the FERC Form 1 to remove merger-related costs. These adjustments are detailed in Attachment No. 15. Also included in Attachment 15 is an adjustment for filing years 2013-17 due to the cumulative result of the recalculation of allocators to remove merger amounts within lines 2, 3, 6 and 7 of Appendix A of each respective year's formula, plus interest. The exclusion adjustment to the allocators for the 2018 filing is included in the merger exclusion calculation support in Attachment 15. Consistent with the Commission's Orders, recovery of excluded merger costs will occur only upon the Commission's acceptance of a filing seeking recovery of the costs made pursuant to the instructions in the Commission's Orders.

In addition to adjusting the above-referenced balances for merger costs, ComEd has made an adjustment to remove the Purchase of Receivables – Combined Billing ("PORCB") capital expenditures from rate base. ComEd made enhancements to its billing system to allow for combined billing on behalf of load-serving Retail Electric Suppliers ("RES") taking transmission service from PJM in the ComEd zone. Pursuant to an agreement reached with the Illinois Commerce Commission ("ICC") in 2015, ComEd is removing the PORCB capital investment from transmission rate base (reducing the transmission revenue requirement) and will instead recover the PORCB expenditures through its Rider PORCB, on file at the ICC, which imposes retail charges on the RES.

ComEd made an adjustment to the FERC Form 1 data reported on Appendix A, Line 60 (transmission lease payments). The FERC Form 1 entry includes the lease payments related to the distribution equipment housed in the Willis Tower. The amount reported in the FERC Form 1 is properly recovered from ComEd's retail customers, and thus has been excluded from the transmission formula rate.

The details of these adjustments are included in Attachment No. 15, which consistent with the Staff Guidance, also includes supporting documentation for the formula rate entry for Attachment 5, Line 65, which is not sourced from the FERC Form 1.

### D. 2017 ICC Annual Report

In accordance with Section 1(g)(iii)(4) of the Protocols, a copy of ComEd's 2017 Annual Report filed with the ICC (Form 21) is included as Attachment No. 3.

# E. Statement Regarding Certain Rate Filings with any Federal, State, or Other Regulatory Body that has Jurisdiction

Section 1(g)(iii)(5) of the Protocols requires a statement describing the extent to which operating revenues are subject to refund for the period covered by the Annual Update for each rate change filed with any federal, state or other regulatory body that has jurisdiction, as well as copies of any orders in which applications for a rate increase have been acted on by any regulatory body during the period covered by the Annual Update and a copy of any transmittal letter or equivalent written document by which ComEd summarized and submitted any pending applications that have not been acted upon.

ComEd did not record any revenues subject to refund in 2017.

#### F. Reconciliation of Monthly Peak Demands

Section 1(g)(iii)(6) of the Protocols requires a reconciliation of monthly peak demands shown on FERC Form No. 1 and monthly peak demands used in the formula.

The 2017 ComEd Zonal Peak Load reported by PJM is 20,351 MW and matches the peak load reported on page 401b of the 2017 FERC Form No. 1. No reconciliation is necessary.

#### **G.** Uniform System of Accounts Itemization

Section 1(g)(iii)(7) of the Protocols requires an itemization of each of the following accounts of the Uniform System of Accounts by sub-account:

- i. Account 165 Prepayments. See Attachment No. 4.
- ii. Account 454 Rent From Electric Property. See Attachment No. 5.
- iii. Account 456 Other Electric Revenues. See Attachment No. 6.
- iv. Account 303 Miscellaneous Intangible Plant. See Attachment No. 7.
- v. Account 397 General Plant (Communications Equipment). See Attachment No.

- vi. Account 105 Land Held for Future Use. See Item H, infra.
- vii. Account 255 Accumulated Deferred Investment Tax Credits. *See* Attachment No. 10.
- viii. Account 450 Forfeited Discounts. See Attachment No. 11.
- ix. Account 451 Miscellaneous Service Revenues. See Attachment No. 12.

Communications equipment recorded under Account 397 is functionalized based on the results of ComEd's most recent locational direct assignment study allocating communications equipment. Section 4.7 of the Settlement Agreement approved in the January 16 Order requires ComEd to update the study analysis each year and provide the updated study as part of the information included with its Annual Update. The updated functionalization study for Account 397 is included in Attachment No. 8.

#### H. Land Held for Future Use

Section 1(g)(iii)(8) of the Protocols specifically requires a description of the intended use for each piece of land within 15 years of the rate base determination period. A plan identifying the date of intended use for land held for transmission purposes in the Uniform Systems of Accounts - Account 105 for transmission purposes is provided in Attachment No. 9.

#### I. Factors Influencing Change in Annual Revenue Requirement

Section 1(g)(iii)(9) of the Protocols requires a description of those factors influencing any change in the annual revenue requirement, including identification of any respects in which charges under the formula rate materially differ from the preceding Annual Update (e.g., due to changes in accounting procedures, the purchase or sale of major assets, or other such significant changes) and identification of the major reason(s) for the differences, if any, between the Annual Update and the prior year's Annual Update.

ComEd's 2017 Annual Update included a net zonal revenue requirement of \$726M, applicable from June 2017 through May 2018. ComEd's 2018 Annual Update includes a net zonal revenue requirement of \$700M.

The primary driver of the decrease in the revenue requirement is the impact of the 2017 Tax Cut and Jobs Act which reduced the federal corporate tax rate from 35% to 21%. The reduced tax rate is a component of the tax gross up which is applied to the forecasted rate base. An additional driver of the decrease relates to a reduced rate of return due to a lower cost of debt. The revenue requirement decrease is partially offset by higher than expected 2017 plant additions along with projected additions for 2018. These plant additions are, in large part, attributable to investments in transformer upgrades and replacement and reliability projects such as installation of capacitor banks that allow better control of voltage flows. The increase in allocated Administrative and General O&M expense is primarily driven by an increase in the wages and salary allocator.

The drivers are detailed in Attachment No. 13.

The network service rate effective June 1, 2018 is \$34,401 MW/Year reflecting 2017 actual costs plus 2018 forecasted plant additions, compared to a current rate of \$34,286 MW/Year which reflects 2016 actual costs plus 2017 forecasted plant additions. These changes are also shown in Attachment 13.

#### J. Changes to Inputs as a Result of Reconciliation

Section 1(g)(iii)(10) of the Protocols requires identification of any changes to the data inputs made as a result of the reconciliation mechanism set forth in Section 4 of the implementation protocols. Attachment No. 14 consists of formula worksheets showing 2017 inputs trued-up to actuals.

#### K. Changes in Accounting Policies, Practices and Procedures

Section 1(g)(iii)(10) of the Protocols requires a description of material changes, if any, in ComEd's accounting policies, practices and procedures from those in effect for the calendar year upon which the immediately preceding Annual Update was based that could or did affect the charges under the formula rate.

There were no material changes in ComEd's accounting policies, practices and procedures in 2017 that could or did affect the charges under the formula rate.

#### II. Conclusion

This Annual Update provides the information required by the implementation protocols contained in the Settlement Agreement approved by the Commission in Docket No. ER07-583-000 and now in effect under Attachment H-13B of the PJM OATT. The Protocols provide specific procedures for notice, requests for information, as well as review and challenge to the Annual Update.<sup>7</sup> Consistent with the Letter Order accepting ComEd's 2009 Annual Update and establishing procedures for future filings, the 2018 Annual Update is being submitted for informational purposes only in Docket No. ER09-1145.<sup>8</sup> As stated,

This letter also advises ComEd that annual updates in the forthcoming years should be submitted, for informational purposes only, in Docket No. ER09-1145-000. Upon receipt, the Commission will not act on or notice the informational filing because the formula rate implementation protocols provide specific procedures for notice, review, and challenges to the annual updates.<sup>9</sup>

Thank you for your attention to this matter.

#### Notes

- A Electric portion only
- **B** Line 16, for the Reconciliation, includes New Transmission Plant that was actually placed in service weighted by the number of months it was actual Line 17 includes New Transmission Plant to be placed in servcie in the current calendar year that is not included in the PJM regional Transmission F (time-weighted) as shown on Attachment 6.
- C Includes Transmission portion only. At each annual informational filing, Company will identify for each parcel of land an intended use within a 15 year
- D Includes all EPRI Annual Membership Dues
- E Includes all Regulatory Commission Expenses
- F Includes Safety related advertising included in Account 930.1
- G Includes Regulatory Commission Expenses directly related to transmission service, RTO filings, or transmission siting itemized in Form 1 at 351.h.
- **H** CWIP can only be included if authorized by the Commission.
- I The currently effective income tax rate where FIT is the Federal income tax rate; SIT is the State income tax rate, and p = the percentage of federal income tax deductible for state income taxes.
- J ROE will be supported in the original filing and no change in ROE will be made absent a filing at FERC.
  - PBOP expense is fixed until changed as the result of a filing at FERC.
  - Depreciation rates shown in Attachment 9 are fixed until changed as the result of a filing at FERC.
  - If book depreciation rates are different than the Attachment 9 rates, ComEd will provide workpapers at the annual update to reconcile formula depreciation expense and depreciation accruals to Form No. 1 amounts.
- K Education and outreach expenses relating to transmission, for example siting or billing
- L As provided for in Section 34.1 of the PJM OATT; the PJM established billing determinants will not be revised or updated in the annual rate reconcili
- M Amount of transmission plant excluded from rates per Attachment 5.
- N Outstanding Network Credits is the balance of Network Facilities Upgrades Credits due Transmission Customers who have made lump-sum paymer towards the construction of Network Transmission Facilities consistent with Paragraph 657 of Order 2003-A.
  - Interest on the Network Credits as booked each year is added to the revenue requirement to make the Transmisison Owner whole on Line 155.
- O Payments made under Schedule 12 of the PJM OATT that are not directly assessed to load in the Zone under Schedule 12 are included in Transmission O&M on Line 56. If they are booked to Acct 565, they are included on Line 59.
- P Securitization bonds may be included in the capital structure.
- Q Equity and debt ratios will be the ratios determined by the actual capital structure and the specified calculation processes of the formula, except that period May 1, 2007 through May 31, 2009 the formula produces an equity ratio exceeding 58.0%, the formulaic value at Line 119 shall be manually and the formulaic value at Line 117 shall be manually set to 42.0% less the percentage shown at Line 118.
  - If, during the period June 1, 2009 through May 31, 2010, the formula produces an equity ratio exceeding 57.0%, the formulaic value at Line 119 sha set to 57% and the value at Line 117 shall be manually set to 43.0% less the percentage shown at Line 118.
  - If, during the period June 1, 2010 through May 31, 2011, the formula produces an equity ratio exceeding 56.0%, the formulaic value at Line 119 sha set to 56% and the value at Line 117 shall be manually set to 44.0% less the percentage shown at Line 118.
  - If, during any period following May 31, 2011, the formula produces an equity ratio exceeding 55.0%, the formulaic value at Line 119 shall be manual and the formulaic value at Line 117 shall be manually set to 45.0% less the percentage shown at Line 118.

#### **Criteria for Allocation:**

- A Other taxes that are incurred through ownership of plant including transmission plant will be allocated based on the Gross Plant Allocator. If the taxes are 100% recovered at retail they shall not be included.
- B Other taxes that are incurred through ownership of only general or intangible plant will be allocated based on the Wages and Salary Allocator. If the taxes are 100% recovered at retail they shall not be included.
- C Other taxes that are assessed based on labor will be allocated based on the Wages and Salary Allocator.
- D Other taxes except as provided for in A, B and C above, that are incurred and (1) are not fully recovered at retail or (2) are directly or indirectly related to transmission service will be allocated based on the Gross Plant Allocator; provided, however, that overheads shall be treated as in footnote B above.
- E Excludes prior period adjustments in the first year of the formula's operation and reconciliation for the first year.

#### Attachment 3 - Revenue Credit Workpaper

#### Accounts 450 & 451

1 Late Payment Penalties Allocated to Transmission \$ 3,411,869

#### **Account 454 - Rent from Electric Property**

2 Rent from Electric Property - Transmission Related 11,229,825

#### Account 456 - Other Electric Revenues (Note 1)

3 Transmission for Others (Note 3) 7,443,542

4 Schedule 1A 22,776,913

Net revenues associated with Network Integration Transmission Service (NITS) for which the load is not included in the divisor (difference between NITS credits from PJM and PJM NITS charges paid by Transmission Owner) (Note 3)

6 Point to Point Service revenues for which the load is not included in the divisor received by Transmission Owner

7 PJM Transitional Revenue Neutrality (Note 1)

8 PJM Transitional Market Expansion (Note 1)

9 Professional Services

10 Revenues from Directly Assigned Transmission Facility Charges (Note 2)

11 Rent or Attachment Fees associated with Transmission Facilities

12 Gross Revenue Credits (Sum Lines 1-11) \$ 44,862,149

- 13 Amount offset from Note 3 below
- 14 Total Account 454 and 456
- 15 Note 1: All revenues related to transmission that are received as a transmission owner (i.e., not received as a LSE), for which the cost of the service is recovered under this formula, except as specifically provided for elsewhere in this Attachment or elsewhere in the formula will be included as a revenue credit or included in the peak on line 174 of Appendix A.
- Note 2: If the costs associated with the Directly Assigned Transmission Facility Charges are included in the Rates, the associated revenues are included in the Rates. If the costs associated with the Directly Assigned Transmission Facility Charges are not included in the Rates, the associated revenues are not included in the Rates.

Note 3: If the facilities associated with the revenues are not included in the formula, the revenue is shown here, but not included in the total above and explained in the Cost Support. For example revenues associated with distribution facilities. In addition Revenues from Schedule 12 are not included in the total above to the extent they are credited under Schedule 12.

On the formulas used in the Columns for lines 22- are as follows
For Plant in service. (first ever means first were the proteint in service)
\*Beginning\* is the investment on line 17 for the first year and is the "Ending" for the prior year after the first year
\*Depreciation" is the investment on line 17 for the first year and is the "Ending" for the prior year after the first year
\*Depreciation" is the annual depreciation line 18 divided by twelve lims the difference of thirteen minus line 19 in the first year and line 18 thereafter if "no" on line 13. "Depreciation" is "O' (zero) if "Yes" on line 13.
\*Ending is "Beginning" less "Depreciation"
\*Revenue is "Ending" times line 16 or the current year times the quotient line 19 divided by 13 plus "Depreciation" for the first year and "Ending" times line 16 plus "Depreciation" thereafter

New Plant Carrying Charge

For CWIP:
Beginning is the line 17 for that year
Depreciation is not used
Ending is the same as Beginning
Revenue is Ending times line 16 for the current year

# ANNUAL REPORT OF ELECTRIC UTILITIES, LICENSEES AND/OR NATURAL GAS UTILITIES INSTRUCTIONS FOR FILING FORM 21 ILCC

#### **GENERAL INFORMATION**

### I. PURPOSE:

This form is a regulatory support requirement (Public Utilities Act, Section 5-109). It is designed to collect financial and operational information from electric and gas utilities subject to the jurisdiction of the Illinois Commerce Commission.

## II. WHO MUST SUBMIT:

All electric and gas utilities subject to the Illinois Commerce Commission jurisdiction.

## III. WHAT, WHERE AND WHEN TO SUBMIT

(a) Submit a completed and verified copy of Form 21 ILCC on or before MARCH 31 of the year following the year covered by this report (three hole punched but not bound) to:

ILLINOIS COMMERCE COMMISSION

527 East Capitol Avenue

Springfield, IL 62701

- (b) Submit immediately upon publication one copy of the submitted FERC Form Nos. 1 and/ or 2, if applicable, to the above address. The submitted copy should be three hole punched, but not bound.
- (c) Submit immediately upon publication one copy of the SEC 10-K Report, if applicable, to the above address. The submitted copy should be three hole punched.
- (d) Submit immediately upon publication one copy of the Annual Report to Stockholders. The submitted copy should be three hole punched.
- (e) Submit an electronic file of Form 21 ILCC and electronic files or hyperlinks to the FERC Form 1, the SEC 10-K, and the Annual Report to Stockholders when submitted in hard copy to the Illinois Commerce Commission to <a href="mailto:fad@icc.illinois.gov">fad@icc.illinois.gov</a>.

## IV. REGISTERED AGENT

<u>Exact Name of Registered Agent</u>: Verónica Gómez, Senior Vice President, Regulatory and Energy Policy and General Counsel, Commonwealth Edison Company

Street or Local Address: 440 South LaSalle Street, Suite 3300 City: Chicago State: Illinois Zip Code: 60605-1028

Telephone (312) 394-4997

# ANNUAL REPORT OF ELECTRIC UTILITIES, LICENSEES AND/OR NATURAL GAS UTILITIES

#### **GENERAL INSTRUCTIONS**

- This form of annual report is prepared in conformity with the applicable Uniform System of Accounts and all of the accounting terminology used herein is in accordance therewith.
- II. Enter in whole numbers only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts in the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "NONE" where it truly and completely states the fact.
- IV. The schedules within Form 21ILCC are classified as follows:
  - 0 Series General Corporate Schedules required by all utilities filing Form 21 ILCC
  - 100 Series General Corporate Schedules required by gas only utilities not submitting FERC Form No. 2.
  - 200 Series Balance Sheet Supporting Schedules required by gas utilities not submitting FERC Form No. 2.
  - 300 Series Income Supporting Schedules required by gas utilities not submitting FERC Form No. 2.
  - 500 Series Gas Plant Statistical Data required by gas utilities not submitting FERC Form No. 2.
  - 600 Series Electric Data required by all electric utilities.
  - 700 Series Gas Data required by all gas utilities.

Electric only utilities that submit FERC Form No. 1 to the Illinois Commerce Commission (ICC) must submit the following schedules: 0 Series and 600 Series.

Combination utilities (utilities that provide both electric and gas service in Illinois) that submit FERC Form No. 1 (but not FERC Form No. 2) to the ICC must submit the following schedules: 0 Series, 200 Series, 300 Series, 500 Series, 600 Series, and 700 Series.

Combination utilities (utilities that provide both electric and gas service in Illinois) that submit FERC Form Nos. 1 and 2 to the ICC must submit the following schedules: 0 Series, 600 Series and 700 Series.

Gas only utilities that submit FERC Form No. 2 to the ICC must submit the following schedules: 0 Series and 700 Series.

Gas only utilities that do not submit FERC Form No. 2 to the ICC must submit the following schedules: 0 Series, 100 Series, 200 Series, 300 Series, 500 Series and 700 Series.

If a schedule within a series is not applicable to the respondent, enter the words "NOT APPLICABLE" on the particular page or omit the page and enter "N/A" or "NOT APPLICABLE" in the "Remarks" column on the List of Schedules on pages vi through x. If pages are deleted, indicate in the footer of the prior provided page number of the next subsequently provided page.

- V. It is preferred that all data be typed on the form. Entries of an opposite character (such as decreases reported in a column providing for both increases and decreases) should be enclosed in parentheses.
- VI. Enter the month, day and year for all dates. Use customary abbreviations. The "Date of Report" at the top of each page is applicable only to the resubmission (see VII below).
- VII. When making revisions, resubmit only those pages that have been changed from the original submission. Submit the same number of copies as required for filing the form. Include with the resubmission the Identification and Attestation page as the last page. Mail dated resubmission to:

ILLINOIS COMMERCE COMMISSION

527 East Capitol Avenue

Springfield, IL 62701

- VIII. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement (8 1/2 x 11 inch size) to the page being supplemented. Provide the appropriate identification information, including the title(s) of the page and the page number supplemented.
- IX. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized. The annual report should in all particulars be complete in itself.
- X. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown on the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.
- XI. Respondents may submit computer printed schedules (reduced to 8 1/2 x 11) instead of the schedules herein if they are substantially the same format.
- XII. Where Illinois Commerce Commission authority is to be supplied, enter the applicable docket number.
- XIII. The word "respondent", whenever used in this report, means the person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.
- XIV. Because of the limited space afforded on some Form 21 ILCC schedules, dollar signs may be omitted where necessary. The rounding of numbers in thousands is permissible in cases where there is insufficient room for all digits. However, notations to this effect must be made in a conspicuous location on the page on which the rounding occurs.

STATEMENT OF RETAINED EARNINGS					

#### Instructions:

- 1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated, undistributed subsidiary earnings for the year.
- 2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded. Show the contra primary account affected in column (b).
- 3. State the purpose and amount of each reservation or appropriation of retained earnings.
- 4. List first account 439 Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained

earnings. Follow by credit, then debit items in that order.

- 5. Show dividends for each class and series of capital stock.
- 6. Show separately the State and Federal income tax effect of items in account 439, Adjustments to Retained Earnings.
- 7. Explain in a footnote the balance for determining the amount reserved or appropriated. If such reservation or appropriation is to be

recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.

8. If any notes appearing in the report to stockholders are applicable to this statement, include them on pages 122-123.

#### ILLINOIS ELECTRIC NET OPERATING REVENUES

- 1. Report the amounts derived from providing utility services in Illinois. Only revenues resulting from tariffed services are to be reported on lines 1 through 8.
- 2. In columns (b) and (c), Supply--Fixed Price Service and Supply--Hourly Priced Service, the revenues reported shall include all supply charges. Revenues from supply charges shall include revenues for the cost of energy, transmission charges, and any ancillary services.
- 3. In column (d), Delivery Charges--Full Service Customers, the revenues reported shall include the delivery service charges for full service customers. Full service customers are those customers receiving either Fixed Price Service or Hourly Priced Service from the utility.
- 4. In column (e), Delivery Charges--Delivery of RES Power, report delivery service charge revenues for the power that is delivered to customers and that is purchased from Retail Electric Suppliers.
- 5. If the actual amounts are not available, an estimate should be reported. If an estimate is reported, the fact should be footnoted and the supporting documents that show the derivation of the estimate should be sent to the Director of the Financial Analysis Division and the Director of the Energy Division of the Illinois Commerce Commission.
- 6. If the utility has used Account 456 to record revenues from the tariffed transmission of the utility's own electricity rather than limiting transmission revenues in Account 456 to only revenues from transmission of electricity of others over transmission facilities of the utility, report those revenues in the appropriate column on line 20.
- 7. Report supply charge revenues from the Power Purchase Option in Supply--Fixed Price Service or Supply--Hourly Priced Service, as appropriate, and in a footnote to this page.
- 8. If the utility has offered bundled service, report fixed price bundled service in column (b) and time of day and/or hourly priced bundled service in column (c). Additionally, note the reporting of bundled service amounts in a footnote.
- 9. All of the revenue effects (customer credits and generator reimbursements) of the 2007 Settlement Agreement shall be shown on lines 2 and 4 in the appropriate columns.

#### ILLINOIS MEGAWATT HOURS SOLD OR DELIVERED AND AVERAGE NUMBER OF ILLINOIS ELECTRIC CUSTOMERS PER MONTH

1. Report the megawatt hours sold or delivered from providing utility services in Illinois and the average number of electric customers per month.

Information reported should correspond to information reported on page 8, Illinois Electric Operating Revenues for the reporting year.

2. If the actual amounts are not available, an estimate should be reported. If an estimate is reported, the fact should be footnoted and the supporting documents that show the

derivation of the estimate should be sent to the Director of the Financial Analysis Division and the Director of the Energy Division of the Illinois Commerce Commission.

- 3. Report supply charge megawatt hours and average number of customers from the Power Purchase Option in Supply--Fixed Price Service or Supply--Hourly Priced Service, as appropriate, and in a footnote to this page.

4. If th	e utility has offered bundled service, report fixed price bundled service in colur	nn (b) and time of day and/or ho	ourly priced bundled service in	column (c). Additionally, n	ote the reporting of bundled service amou	unts in a footnote.

This Report Is: (1) An Original Date of Report (Mo./Da./Yr.) Year of Report

December 31, 2017

#### PAYABLES TO ASSOCIATED COMPANIES (Accounts 233, 234)

#### Instructions:

TOTAL

19

Name of Respondent

Instructions:

Commonwealth Edison Company

- 1. Report the particulars of notes and accounts to associated companies at end of year.
- 2. Provide separate totals for Accounts 233, Notes Payable to Associated Companies, and 234, Accounts Payable to

Associated Companies, in addition to the total for the combined accounts.

- 3. List each note separately and state the purpose for which issued. Show also in column (a) date of note and maturity.
- 4. Include in column (e) the amount of any interest expense during the year on notes or accounts that were paid before the end of year.

#### LONG TERM DEBT (Accounts 221, 222, 223 and 224)

#### Instructions:

- 1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221- Bonds, 222- Reacquired Bonds, 223- Advances from Associated Companies, and 224- Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form filling, a specific reference to the report form (i.e. year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
- 2. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
- 3. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) name of associated companies from which advances were received.
- 4. For receivers' certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.
- 5. In a supplemental statement, give explanatory particulars (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amounts, and (c) principal repaid during year. Give commission authorization numbers and dates.

# LONG TERM DEBT (Accounts 221, 222, 223 and 224)

Instructions:

- 6. If the respondent has pledged any of its long-term debt securities, give particulars (details) in a footnote, including name of the pledgee and purpose of the pledge.
- 7. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
- 8. If interest expense was incurred during the year on any obligation retired or reacquired before end of year, include interest expense in column (g). Explain in a footnote any difference between the total of column (g) and the total Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.
- 9. Give particulars (details) concerning any long-term debt authorized by a regulatory commission but not yet issued.
- 10. In column (b) show the principal amount of bonds or other long -term debt originally issued.
- 11. In column (i) provide redemption price in % or per \$100 of face amount outstanding. If the respondent has provided information required in column (i) in a document filed pursuant to Article 6 of the Illinois Public Utilities Act, respondent may reference that document in a footnote in lieu of providing the information here.

### **INVESTMENTS (Accounts 123, 124, 136)**

#### Instructions:

- 1. Report below investments in Accounts 123- Investments in Associated Companies, 124- Other Investments, and 136-Temporary Cash Investments.
- 2. Provide a subheading for each account and list there under the information called for:
- (a) Investment in Securities List and describe each security owned, giving name of issuer, date acquired and date of maturity. For bonds, also give principal amount, date of issue, maturity and interest rate. For capital stock (including capital stock of respondent) reacquired under a definite plan for resale pursuant to authorization by the Board of Directors, and included in Account 124- Other Investments, state number of shares, classes, and series of stock. Minor investments may be grouped by classes. Investments included in Account 136- Temporary Cash Investments, also may be grouped by classes.
- (b) Investment Advances Report separately for each person or company the amounts of loans or investment advances which are properly includable in Account 123. Advances subject to current repayment should be included in Accounts 145 and 146. With respect to each advance, show whether the advance is a note or open account.

### INVESTMENTS (Accounts 123, 124, 136) (continued)

#### Instructions:

Each note should be listed giving date of issuance, maturity date, and specifying whether note is a renewal.

Designate any advances due from officers, directors, stockholders, or employees. Exclude amounts reported on page 229, of FERC Form 1.

- 3. For any securities, notes or accounts that were pledged, designate with an asterisk such securities, notes or accounts and in a footnote state the name of pledges and purpose of the pledge.
- 4. If Commission approval was required for any advances made or securities acquired, designate such fact in a footnote and give name of Commission, date of authorization, and case or docket number.
- 5. Report in column (g) interest and dividend revenues from investments including such revenues from securities disposed of during the year.
- 6. In column (h) report for each investment disposed of during the year the gain or loss represented by the difference between cost of the investment (or the other amount at which carried in the books of account if different from cost) and the selling price thereof, not including any dividend or interest adjustment includible in column (g).

Sales or Other Dispositions During Year (d)	Principal Amount of No. of Shares at End of Year (e)	Book Cost at End of Year (If book cost is different from cost to respondent, give cost to respondent in a footnote and explain difference). #### Instructions:

Instructions:

1. Report the information specified below for all charges made during the year included in any account (including plant accounts) for outside consultative and other professional services. (These services include rate, management, construction, engineering, research, financial, valuation, legal, accounting, purchasing, advertising, labor relations, and public relations, rendered for the respondent under written or oral arrangement, for which aggregate payments were made during the year to any corporation, partnerships organization of any kind, or individual (other than for services as an employee or for payments made for medical and related services) amounting to more than \$55,000 for utilities with operating revenues of \$25,000,000, including payments for legislative services, except those which should be reported in Account 425.4 Expenditure for Certain Civic, Political and Related Activities.

- (a) Name and Address of person or organization rendering services.
- (b) Description of services received during year and project or case to which services relate.
- (c) Basis of charges.
- (d) Total charges for the year, detailing utility department and account charged.
- 2. For any services that are of a continuing nature, give the date and term of contract and date of Commission authorization, if contract received Commission approval.
- 3. Designate with an asterisk associated companies.

Name of Respondent	This Report Is:	Date of Report (Mo./Da./	Year of Report
Commonwealth Edison Company	(1) An Original	Yr.)	December 31 2017

1. Report the information specified below for all charges made during the year included in any account (including plant accounts) for outside consultative and other professional services. (These services include rate, management, construction, engineering, research, financial, valuation, legal, accounting, purchasing, advertising, labor relations, and public relations, rendered for the respondent under written or oral arrangement, for which aggregate payments were made during the year to any corporation, partnerships organization of any kind, or individual (other than for services as an employee or for payments made for medical and related services) amounting to more than \$50,000 for utilities with operating revenues of \$25,000,000 or less and more than \$250,000 for utilities with operating revenues of more than \$25,000,000, including payments for legislative services, except those which should be reported in Account 425.4 Expenditure for Certain Civic, Political and Related Activities.

- (a) Name and Address of person or organization rendering services.
- (b) Description of services received during year and project or case to which services relate.
- (c) Basis of charges.
- (d) Total charges for the year, detailing utility department and account charged.
- 2. For any services that are of a continuing nature, give the date and term of contract and date of Commission authorization, if contract received Commission approval.
- 3. Designate with an asterisk associated companies.

#### GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

#### Instructions:

- 1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.
- 2. Show below the computation of allowances for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the Uniform System of Accounts.
- 3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effect.

See Pages 44a, 44b and 44c for a General Description of Construction Overhead Procedure and the Computation of the Quarterly Allowance for Funds Used During Construction Rate.

#### COMPUTATION OF ALLOWANCES FOR FUNDS USED DURING CONSTRUCTION RATES

- 1. For line 1(5), column (d) below, enter the rate granted in the last rate proceeding. If such is not available, use the average rate earned during the preceding three years.
- 2. Identify, in a footnote, the specific entity used as the source for the capital structure figures.
- 3. Indicate, in a footnote, if the reported rate of return is one that has been approved in a rate case, black-box settlement rate, or an actual three-year average rate.
- 1. Components of Formula (Derived from actual book balances and actual cost rates):

Line No.	Title (a)	Amount (b)	Capitalization Ratio (Percent) (c)	Cost Rate Percentage (d)
1	Average Short-Term Debt	S		
2	Short Term Interest			s
3	Long-Term Debt	D		d
4	Preferred Stock	Р		р
5	Common Equity	С		С
6	Total Capitalization			
7	Average Construction Work in Progress Balance	W		

- 2. Gross Rates for Borrowed Funds = S(S/W)+d(D/(D+P+C))(1-S/W)
- 3. Rate for Other Funds = [1-S/W][p(P/(D+P+C))+c(C/(D+P+C))]
- 4. Weighted Average Rate Actually Used for the Year:
  - a. Rate for Borrowed Funds -
  - b. Rate for Other Funds -

Page 44, Item 1, Line No. 5, column (d) - The Common Equity Cost Rate Percentage used in the computations on pages 44b and 44c reflects the cost of common equity allowed in the ICC Order per Docket No. 16-0259.

Form 21 ILCC page 44

Name of Respondent This Report Is: Date of Report (Mo./Da./Yr.) Year of Report

Commonwealth Edison Company (1) An Original December 31, 2017

#### GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

#### **Engineering**

The salaries and expenses of engineers whose time can be directly assigned to specific projects are directly recorded to applicable capital projects. The salaries and expenses of engineers performing strategic services, system expansion and other safeguards to aid in system reliability not directly assigned are allocated to capital projects on the basis of direct labor costs and contract labor costs.

#### Certain Administrative, Legal and Injuries and Damages Costs

An analysis is made of certain administrative and general costs, legal costs and injuries and damages costs, including certain affiliated service company costs, to determine the portions of such costs accumulated in operation and maintenance expense accounts, which are applicable to construction. Amounts applicable to construction are charged to an overhead project and distributed to construction based on total costs of construction projects each month.

#### Workmen's Compensation, Incentive Compensation, Stock Compensation, Pensions, Employee Benefits and Payroll Taxes

The costs of workmen's compensation, incentive compensation, stock compensation, pensions, employee benefits and payroll taxes are accumulated in clearing accounts and projects provided for that purpose. The costs are allocated to construction projects on the basis of direct labor costs.

#### Supervision and Other Operations' Support Costs Includable in Direct Construction Costs and Information Systems Costs

The salaries and expenses of employees whose time can be directly assigned to specific projects are directly recorded as direct construction costs. The salaries and expenses of certain department heads, other supervisory employees, other operations' support employees and certain information systems costs are allocated to construction projects on the basis of direct labor costs and contract labor costs.

#### Illinois Use Tax

Illinois Use Tax is added to the cost of materials purchased and thus is expensed or capitalized in accordance with the accounting for the associated materials.

#### Allowance for Funds Used During Construction (AFUDC)

The computation of an annual AFUDC rate has been approved by the Chief Accountant of the Federal Energy Regulatory Commission. However, ComEd made quarterly computations during the year 2017. The rates used in 2014 are presented on pages 44b and 44c. The allowance is compounded semi-annually and is applied to construction expenditures for projects having a construction period exceeding 30 days and amounting to more than \$25,000. The computation period begins with the commencement of construction and ends with the in-service date. AFUDC is charged to specific overhead projects and distributed to construction based on direct charges to construction projects each month.

#### **Capitalized Interest**

ComEd uses Accounting Standards Certification No. 835, "Capitalization of Interest Costs," to calculate the costs during construction of debt funds used to finance its non-regulated construction projects.

Form 21 ILCC page 44a

Commonwealth Edison Company

(1) An Original

December 31, 2017

#### COMPUTATION OF QUARTERLY ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES

#### First Quarter 2017

Title	Amount (in \$000)	Capitalization Ratio	Cost Rate
Average Short-term Debt	217,030		
Short-Term Interest			1.08%
Long-Term Debt	7,285,115	45.51%	4.77%
Preferred Stock			
Common Equity	8,722,702	54.49%	8.59%
Total Capitalization	16,007,817	100.00%	
Average CWIP Balance	457,754		
Gross Rate for Borrowed Funds		1.65%	
Rate for Other Funds		2.46%	
Weighted Average Rate Actually Used for the Quarter			
Rate for Borrowed Funds		1.65%	Note 1
Rate for Other Funds		2.46%	

#### Second Quarter 2017

Title	Amount (in \$000)	Capitalization Ratio	Cost Rate
Average Short-term Debt	351,212		
Short-Term Interest			1.32%
Long-Term Debt	7,285,632	45.13%	4.76%
Preferred Stock			
Common Equity	8,858,348	54.87%	8.59%
Total Capitalization	16,143,980	100.00%	
Average CWIP Balance	533,141		
Gross Rate for Borrowed Funds		1.60%	
Rate for Other Funds		1.61%	
Weighted Average Rate Actually Used for the Quarter			
Rate for Borrowed Funds		1.60%	Note 1
Rate for Other Funds		1.61%	

Note 1 According to the FERC guidelines defining the components of the cost of construction, the formula to determine the proportion of costs from varying funding sources (Equity Capital, Long-Term Debt & Short-term debt) derives rates from funding sources other than STD by first allocating the portion attributable to STD. The calculation fundamentally first assigns short-term borrowing to capital investment. Using that premise, in situations where short-term borrowings exceed invested capital (CWIP), 100% of the AFUDC rate will be comprised of the estimated short-term borrowing rate for the calculation period. This treatment is also consistent with an ICC ruling that specifically states this position.

# COMPUTATION OF QUARTERLY ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES

#### Third Quarter 2017

Title	Amount (in \$000)	Capitalization Ratio	Cost Rate
Average Short-term Debt	246,339		
Short-Term Interest			1.54%
Long-Term Debt	7,286,154	44.84%	4.75%
Preferred Stock			
Common Equity	8,963,113	55.16%	8.59%
Total Capitalization	16,249,267	100.00%	
Average CWIP Balance	439,040		
Gross Rate for Borrowed Funds		1.80%	
Rate for Other Funds		2.08%	
Weighted Average Rate Actually Used for the Quarter			
Rate for Borrowed Funds		1.80%	Note 1
Rate for Other Funds		2.08%	

#### Fourth Quarter 2017

Title	Amount (in \$000)	Capitalization Ratio	Cost Rate	
Average Short-term Debt	0			
Short-Term Interest			0.08%	
Long-Term Debt	7,859,110	45.43%	4.62%	
Preferred Stock				
Common Equity	9,440,770	54.57%	8.59%	
Total Capitalization	17,299,880	100.00%		
Average CWIP Balance	494,104			
Gross Rate for Borrowed Funds		2.10%		
Rate for Other Funds		4.69%		
Weighted Average Rate Actually Used for the Quarter				
Rate for Borrowed Funds		2.10%	Note 1	
Rate for Other Funds		4.69%		

Note 1 According to the FERC guidelines defining the components of the cost of construction, the formula to determine the proportion of costs from varying funding sources (Equity Capital, Long-Term Debt & Short-term debt) derives rates from funding sources other than STD by first allocating the portion attributable to STD. The calculation fundamentally first assigns short-term borrowing to capital investment. Using that premise, in situations where short-term borrowings exceed invested capital (CWIP), 100% of the AFUDC rate will be comprised of the estimated short-term borrowing rate for the calculation period. This treatment is also consistent with an ICC ruling that specifically states this position.

# CAPITAL STOCK SUBSCRIBED, CAPITAL STOCK LIABILITY FOR CONVERSION PREMIUM ON CAPITAL AND INSTALLMENTS RECEIVED ON CAPITAL STOCK (Accounts 202 and 205, 203 and 206, 207, 212)

For utilities with gas and electric operations who file this page in FERC Form 1, this page is optional.

Please note on page, "See FERC Form 1".

- 1. Show for each of the above accounts the amounts applying to each class and series of capital stock.
- 2. For Account 202, Common Stock Subscribed, and Account 205, Preferred Stock Subscribed, show the subscription price and the balance due on each class at the end of year.
- 3. Describe in a footnote the agreement and transactions under which a conversion liability existed under Account 203, Common Stock Liability for Conversion, or Account 206, Preferred Stock Liability for Conversion, at the end of the year.
- 4. For Premiums on Account 207, Capital Stock, designate with an asterisk any amounts representing the excess of consideration received over stated values of stocks without par value.

# 2017 Exelon Business Services Company Service Areas & Cost Assignment Methods

Exelon Business Services Company, LLC (BSC) provides services to the Exelon system of companies. For discussion purposes, BSC is divided into three groups: 1) core shared services, 2) utility focused services, and 3) corporate governance. The following are descriptions of the service areas and the cost assignment methods applied when billing the services.

The discussion below summarizes the cost assignment methods which generally require direct billing of services to the extent possible, then allocation based on cost causative allocation methods of costs that cannot be directly assigned.

# 1) CORE SHARED SERVICES AREAS

The Core Shared Services Areas provide a variety of shared support and management services for the Exelon system of companies. These shared services include Information Technology, Supply, Legal Services, Human Resources, Transportation and Real Estate.

#### Information Technology

• <u>Energy Delivery Solutions, GenCo Solutions, Projects & Enterprise Solutions.</u> Provides application support to the business units and centrally manages enterprise-wide applications and business unit specific projects.

#### Cost Assignment:

- Costs for information technology applications which are specific to one Client Company are directly charged to the respective Client Company.
- Costs for information technology applications which benefit all or more than one Client Company are allocated to the respective Client Companies based on an appropriate cost causative allocation methodology, which varies from project to project.
- <u>Cloud and Infrastructure Engineering and Operations.</u> Manages the enterprise IT infrastructure, provides infrastructure services, and ensures a safe and stable operating environment.

#### Cost Assignment:

- Service costs are directly charged to IT Application Portfolios on a unit price basis for services such as mainframe, email, voicemail, LAN, etc. IT Application Portfolio costs are directly charged to Client Companies when specific to one Client Company. IT Application Portfolio costs that benefit more than one Client Company are allocated based on an appropriate cost causative allocation methodology.
- <u>IT Governance.</u> Comprises an IT Program Management Office and Business Office focused on establishing standard processes, procedures and methods and Enterprise Architecture and Planning responsible for comprehensive enterprise strategic planning and architecture standards and assurance.

# Cost Assignment:

• Service costs are allocated to Client Companies based on an IT Service Billings ratio of each Client Company or an appropriate cost causative allocation methodology.

#### Security

Includes the costs of providing Corporate and Information Security services for the Client Companies (formerly part of IT Governance)

- Corporate Security and Analysis. Provides security policy development and alignment with policies and strategic initiatives; Intelligence gathering and analytical services across the corporation to include threat / risk assessments and recommendations.
- <u>Information Security.</u> Develop, maintain and enforce a security strategy, policy and standards framework that aligns Exelon business need, legislative and regulatory requirements, and industry standard practices.

#### Cost Assignment

- Costs for Corporate and Information Security services which are specific to one Client Company are directly charged to the respective Client Company.
- Service costs are allocated to Client Companies based on an IT Service Billings ratio
  of each Client Company or an appropriate cost causative allocation methodology
  which varies by service.

#### Supply

Includes the costs of providing services related to the supply function for the Client Companies. Does not include costs of the materials/services purchased under the Purchase Orders/ Contracts established by BSC Supply Services group or the purchase or sale of power.

- <u>Strategic Sourcing.</u> Manages the sourcing of categories across Exelon, drives total cost of ownership, and manages supplier relationships.
- <u>Supply Operations.</u> Provides tactical support to business unit operations, including logistics and warehousing for Exelon Generation. Embedded Supply employees perform these services for the Utilities.
- <u>Supply Support.</u> Comprises e-business functions, supply projects, and diversity initiatives, as well as policies, programs, systems and decision support systems.

#### Cost Assignment:

- Whenever possible, service costs are directly charged to Client Companies.
- Remaining service costs are allocated to Client Companies based on various expenditure-spend methodologies (generally, the services and/or materials purchased by each Client Company).
- Accounts Payable. Processes invoices and administers the P-Card (purchasing-card) program.

#### Cost Assignment:

 Accounts payable service costs are directly charged to Client Companies on a unit price based on transactions processed for each Client Company.

# **Legal Services**

 <u>Corporate & Commercial</u>. Provides legal support for commercial contract negotiations, acquisitions, intellectual property, strategy, securities, financial reporting, real estate, nuclear related issues, bankruptcy, credit and collections, environmental, general corporate, and other transactional matters.

- <u>Environmental</u>. Provides legal support for the defense of agency enforcement actions, compliance counseling, environmental matters relevant to permitting and re-licensing of generation facilities, support for safety and OSHA compliance, EHS compliance audits and NRC investigations.
- <u>Labor & Employment.</u> Represents Exelon's Client Companies in a wide range of employment related matters before agencies, arbitrators, and state and federal courts; provides advice and counsel on all labor and employment related matters.
- <u>Litigation.</u> Provides legal support for all forms of disputes, including breach of contract, commercial disputes, personal injury, and property damage.
- <u>Regulatory.</u> Represents Exelon's Client Companies before various regulatory agencies, including the Illinois Commerce Commission, the Pennsylvania Public Utility Commission, Maryland Public Service Commission, New Jersey Board of Public Utilities, Delaware Public Service Commission, Public Service Commission of the District of Columbia and the Federal Energy Regulatory Commission.
- <u>Client Services.</u> Comprised of the business functions of the Legal Department, including financial management, client billing, business planning and analysis, human resources, systems management, and general administration.

# Cost Assignment:

Costs for lawyers and paralegals are directly charged to Client Companies when
possible and the remaining services are allocated on the Modified Massachusetts
Formula, an average of each Client Company's Gross Revenues, Total Assets and
Direct Labor to the totals of all Client Companies.

#### **Human Resources**

Human Resources is divided into two groups - (i) General HR activities, including support functions such as diversity, planning and development, employee health and benefits, compensation planning, management and employee development; HR planning, technology and metrics for HR field units; worker's compensation administration; benefits administration services; payroll processing; myHR Service Center Support, HR/Payroll system maintenance and HR process improvement support and metric reporting; (ii) Labor Relations, including development and management of labor relations strategy in support of business units with represented employees.

# Cost Assignment:

- Whenever possible, service costs are directly charged to Client Companies.
- Most general Human Resources Activities costs are directly charged to Client Companies on a unit price basis based on the total employee headcount of each Client Company. Payroll processing costs are directly charged to Client Companies on a unit price based on paycheck counts of each Client Company.
- Labor Relations costs are directly charged to Client Companies on a unit price basis based on the headcount of represented employees of each Client Company or direct charged based on time and materials.

#### **Transportation**

<u>Transportation.</u> Coordinates corporate aircraft services.

## Cost Assignment:

 Service costs are directly charged to Client Companies on a unit price based on total occupied flight hours of each Client Company.

#### **Real Estate**

Includes real estate portfolio and asset management strategy, lease administration for facilities, land or infrastructure obligations, property management, mail services and other real estate consulting services, generally concentrating on non-utility and non-power plant operations.

#### Cost Assignment for the above mentioned area:

Service costs are allocated to Client Companies based on occupied square footage.

#### 2) EXELON UTILITIES AREA

**Exelon Utilities** is comprised of a small utility-focused corporate governance and oversight function that will facilitate collaboration among the utilities to achieve the highest standards of organizational effectiveness, operational excellence, financial discipline and efficiency, and customer and stakeholder satisfaction.

**Utility Planning & Performance** includes oversight and coordination of the business planning process, benchmarking and surveys, performance indicators, utility-wide performance and process improvement initiatives, financial reports, Exelon quarterly management meeting coordination, reporting for Utility Board of Directors and the Energy Delivery Oversight Committee of the Exelon Board of Directors, synergy tracking and reporting, regulatory policy and issues alignment, cost management initiatives, and SLA/ALA coordination.

**Utility Oversight** includes governance and oversight of a Peer Group structure that aligns across the client utilities to drive consistency, best practices and innovation in the core functions of the Management Model; tracks performance regarding key performance indicators, improvement initiatives and industry standards; analyzes opportunities and develops recommendations on issues pertinent to leadership; and provides oversight of Management Model documentation integration across the Utilities.

#### Cost Assignment for the above mentioned groups:

- Whenever possible, service costs are directly charged to specific utility companies.
- The remaining corporate governance costs that cannot be directly charged are allocated to the Utilities based on a utility variation of the Modified Massachusetts Formula, an average of each utility's Gross Revenues, Total Assets and Direct Labor to the totals of all utility companies.

**Transmission Strategy & Compliance** manages the Exelon Utilities' interface with the applicable regional transmission and reliability organizations, manages the NERC Reliability Standard Compliance program to ensure ongoing compliance with NERC Standards, represents utilities' interests and implements corporate strategy in both PJM Regional Transmission Organization and Regional Reliability Organization stakeholder proceedings, and also includes oversight of GAS DOT compliance.

# Cost Assignment:

- Whenever possible, service costs are directly charged to specific utility companies.
- Remaining service costs that benefit participating utilities are allocated for transmission related activities based on transmission peak load allocation, or allocated based on total gas delivered for Gas DOT compliance activities.

# 3) CORPORATE GOVERNANCE AREAS

The Corporate Governance Areas house employees who provide corporate governance services for the Exelon system of companies. The Corporate Governance Areas in BSC include:

<u>Finance.</u> Includes Senior Executive Vice President and CFO Exelon, Finance, Treasury (cash management services, facility and commitment fees, letter of credit fees, and bank service fees), Controller, External Audit fees, Tax (consolidated Federal and state returns), Financial Planning and Analysis, Internal Audit and Financial Controls (Sarbanes-Oxley compliance), Risk Management, Investor Relations, Capital Markets, Insurance Services, and External Reporting.

<u>Executives and General BSC Activities</u>. Includes Exelon senior leadership positions including President and Chief Executive Officer and other Executive Committee members. Also includes general activities, such as income and other taxes, severance and interest, and Board of Directors costs and shareholder meetings.

<u>Communications, Public Advocacy and Corporate Relations.</u> Includes Exelon Corporation advertising/brand management, donations/contributions, sponsorships and annual report creation, shareholder/investor external communications, and other communication services; as well as Client Company public advocacy, advertising, coordination of donations/contribution approval, corporate/media relations, and corporate and external communications; public affairs activities; internal communications; and photography, videography and video production services.

<u>Governmental and Regulatory Affairs and Public Policy.</u> Includes executive oversight; management services for compliance with Federal laws, regulations and other policy requirements including relationship management with Congress, Administration and regulators; strategy development and lobbying and advocacy related to Federal legislative and regulatory initiatives; wholesale market development activities; competition initiative activities; PAC administration and operation; grassroots activities; and Federal public affairs activities.

<u>Legal Governance.</u> Includes General Counsel, Corporate Strategy, and the Corporate Governance group (including the corporation's compliance and ethics program and Corporate Secretary and shareholder services).

<u>Corporate Development.</u> Includes strategic expertise and governance in the evaluation and execution of merger and acquisition opportunities, evaluating company assets for divestiture opportunities, and providing financial and transactional support to restructuring projects.

<u>Corporate Transmission Analysis & Development.</u> Reports to Corporate Development and includes a transmission projects evaluation and development group. (Service costs are direct charged to the Exelon Transmission Company and related transmission projects).

**Physical Security.** Includes corporate security functions such as security investigations and assessments, crisis management response and security related training.

<u>Investments.</u> Includes determining the investment strategy and asset allocation of Exelon's pension funds, VEBA post retirement funds and nuclear decommissioning funds, managing relationships with investment managers, overseeing daily investment activities and maintaining a well-diversified investment menu for the Employee Savings Plans. (Certain Investments Area costs are reimbursable by and therefore billed directly to the applicable funds and plans).

# Cost Assignment for the Corporate Governance Areas:

Whenever possible, service costs are directly charged to Client Companies.

The remaining corporate governance costs that cannot be directly charged are allocated to Client Companies based on the Modified Massachusetts Formula, an average of each Client Company's Gross Revenues, Total Assets and Direct Labor to the totals of all Client Companies.

#### ACCUMULATED PROVISIONS FOR UNCOLLECTIBLE ACCOUNTS RECEIVABLE

- 1. This page is required for utilities that have implemented an automatic adjustment clause tariff for uncollectibles under Sections 16-111.8 or 19-145 of the Public Utilities Act.
- 2. Report below the specified information called for in this schedule. Electric and gas information shall be separately reported.
- 3. In the comments section, provide an explanation or calculation of how the Illinois-jurisdictional amounts are derived.
- 4. If the Accumulated Provision for Uncollectible Accounts Receivable is not used to record the Write-offs (Col. D) and Recoveries (Col. E), state so and provide the relevant Write-off and Recoveries data by ICC Account.
- 5. The information may be reported in more detail if direct cost data is available.

Line No.	Description	Balance at Beginning of Year	Reserve Accrual	Write-offs	Recoveries	Adjustments	Balance at End of Year
	(A)	(B)	(C)	(D)	(E)	(F)	(G)
1	Total Electric	70,275,685	39,102,345	55,627,800		19,188,464	72,938,694

#### **CONSTRUCTION OVERHEADS - Electric**

- 1. List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees and management or supervision fees capitalized should be shown as separate items.
- 2. On page 44 furnish information concerning construction overheads.
- 3. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should explain on page 44 the accounting procedures employed and the amounts of engineering, supervision and administrative costs, etc., which are directly charged to construction.
- 4. Enter on this page engineering, supervision, administrative, and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

#### **ELECTRIC DISTRIBUTION METERS AND LINE TRANSFORMERS**

- 1. Report below the information called for concerning distribution watt-hour meters and line transformers.
- 2. Include watt-hour demand distribution meters, but not external demand meters.
- 3. Show in a footnote the number of distribution watt-hour meters or line transformers held by the respondent under lease from others, jointly owned with others, or held otherwise than by reason of sole ownership by the respondent. If 500 or more meters or line transformers are held under a lease, give name of lessor, date and period of lease, and annual rent. If 500 or more meters or line transformers are held other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of accounting for expenses between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.

			Line Trar	Line Transformers	
Line No.	Item (a)	Number of Watt- Hour Meters (b)	Number (c)	Total Capacity (In MV) (d)	
1	Number at Beginning of Year	4,275,881	502,061	51,599	
2	Additions During Year:	, ,		,	
3	Purchases	781,293	1,709	344	
4	Associated with Plant Acquired			54	
5	Total Additions (Enter Total of lines 3 and 4)	781,293	1,709	398	
6	Reductions During Year:				
7	Retirements	768,214	525	_	
8	Associated with Utility Plant Sold				
9	Total Reductions (Enter Total of lines 7 and 8)	768,214	525	_	
10	Number at End of Year (Lines 1+5-9)	4,288,960	503,245	51,997	
11	In Stock				
12	Locked Meters on Customers' Premises				
13	Inactive Transformers on System				
14	In Customers' Use	4,288,960	503,245	51,997	
15	In Company's Use				
16	TOTAL End of Year (Enter Total of lines 11 to 15. This should equal line10.)	4,288,960	503,245	51,997	

Page 612, Line 3, Column (c) and Line 7, Column (d) - For Line Transformers, represents 2016 purchases net of adjustments and retirements.

Name of Respondent	This Report Is:	Date of Report (Mo./Da./Yr.)	Year of Report	
Commonwealth Edison Company	(1) An Original		December 31, 2017	
ENVIRONMENTAL PROTECTION FACILITIES				

- For purposes of this response, environmental protection facilities shall be defined as any building, structure, equipment, facility, or improvement designed and constructed solely for control, reduction, prevention or abatement of discharges or releases into the environment of gaseous, liquid, or solid substances, heat, noise or for the control, reduction, prevention, or abatement of any other adverse impact of an activity on the environment.
- 2. Report the differences in cost of facilities installed for environmental considerations over the cost of alternative facilities which would otherwise be used without environmental considerations. Use the best engineering design achievable without environmental restrictions as the basis for determining costs without environmental considerations. It is not intended that special design studies be made for purposes of this response. Base the response on the best engineering judgment where direct comparisons are not available. Include in these differences in costs, the costs or estimated costs of environmental protection facilities in service constructed or modified in connection with the production, transmission, and distribution of electrical energy and shall be reported herein for all such environmental facilities placed in service on or after January 1, 1969, so long as it is readily determinable that such facilities were constructed or modified for environmental rather than operational purposes. Also report similar expenditures for environmental plant included in construction work in progress. Estimate the cost of facilities when the original cost is not available or facilities are jointly owned with another utility, provided the respondent explains the basis of such estimations. Examples of these costs would include a portion of the cost of tall smokestacks, underground lines, and landscaped substations. Explain such costs in a footnote.
- 3. In the cost of facilities reported on this page, include an estimated portion of the cost of plant that is or will be used to provide power to operate associated environmental protection facilities. These costs may be estimations on a percentage of plant
- Report all costs under the major classifications provided below and include, as a minimum, the items listed hereunder:
  - Air pollution control facilities:
    - Scrubbers, precipitators, tall smokestacks, etc.
  - Changes necessary to accommodate use of environmentally clean fuels such as low ash or low sulfur fuels including storage and handling (2) equipment.
    - (3) Monitoring equipment
    - (4) Other
  - Water pollution control facilities:
    - Cooling towers, ponds, piping, pumps, etc. (1)
    - Waste water treatment equipment (2)
    - Sanitary waste disposal equipment (3)
    - Oil interceptors (4)
    - Sediment control facilities (5)
    - (6) Monitoring equipment
  - (7) Other. Solid Waste disposal costs: C
    - Ash handling and disposal equipment (1)
    - (2) Land
    - Settling Ponds (3)
    - (4) Other.
  - D. Noise Abatement Equipment:
    - Structures (1)
    - (2) Mufflers
    - (3) Sound proofing equipment
    - (4) Monitoring equipment
    - (5)Other.
  - Esthetic Costs:
    - (1) Architectural costs
    - (2) Towers
    - Underground lines (3)
    - (4) Landscaping
    - (5)
  - Additional plant capacity necessary due to restricted output from existing facilities or addition of pollution control facilities.
  - Miscellaneous:
    - (1) Preparation of environmental reports
    - Fish and wildlife plants included in Accounts 330, 331, 332, and 335. (2)
    - (3) Parks and related facilities
    - Other.
- In those instances when costs are composites of both actual supportable costs and estimates of costs, specify in column (f) the actual costs that are 5. included in column (e).
- 6. Report construction work in progress relating to environmental facilities at line 9.

		Changes During Year				
Line No.	Classification of Cost (a)	Additions (b)	Retirements (c)	Adjustments (d)	Year (e)	Actual Cost (f)
1	Air Pollution Control Facilities					
2	Water Pollution Control Facilities	886,549	_	_	5,167,792	5,167,792
3	Solid Waste Disposal Costs					
4	Noise Abatement Equipment	5,005,485	_	_	5,655,527	5,655,527
5	Esthetic Costs	_	_	_	13,281,798	13,281,798

ENVIRONMENTAL PROTECTION EXPENSES				

#### ENVIRONMENTAL PROTECTION EXPENSES

#### Instructions:

- Show below expenses incurred in connection with the use of environmental protection facilities, the cost of which are reported on page. 430. Where it is necessary that allocations and/or estimates of costs be made, state the basis or method used.
- 2. Include below the costs incurred due to the operation of environmental protection equipment, facilities, and programs.
- 3. Report expenses under the subheadings listed below.
- 4. Under item 6 report the difference in cost between environmentally clean fuels and the alternative fuels that would otherwise be used and are available for use.
- 5. Under item 7 include the cost of replacement power, purchased or generated, to compensate for the deficiency in output from existing plants due to the addition of pollution control equipment, use of alternate environmentally preferable fuels or environmental regulations of governmental bodies. Base the price of replacement power purchased on the average system price of purchased power if the actual cost of such replacement power is not known. Price internally generated replacement power at the system average cost of power generated if the actual cost of specific replacement generation is not known.
- 6. Under item 8 include ad valorem and other taxes assessed directly on or directly relatable to environmental facilities.

  Also include under item 8 licensing and similar fees on such facilities.
- 7. In those instances where expenses are composed of both actual supportable data and estimates of costs, specify in column (c) the actual expenses that are included in column (b).

Line No.	Classification of Expenses (a)	Amount (b)	Actual Expenses (c)
1	Depreciation	540,552	540,552

12		Sub Total per general ledger		\$ (64,662,789)	\$ (10,464,483)	\$ (369,234)	\$ (75,496,506)
13		Adjustments for FERC Form 1					
14		Rent from affiliates	(7)	(2,281,813)	(373,310)	-	(2,655,123)
15		Facility costs billed to affiliates from Account 421	(7)	(2,396,244)	(392,032)		(2,788,276)
16		Total per FERC Form 1		\$ (69,340,846)	\$ (11,229,825)	\$ (369,234)	\$ (80,939,905)

#### Notes:

- (1) Allocated based on direct assignment of revenue received to property plant account classification of the leased properties.
- (2) Represents rentals under Rider NS (Optional or Non-Standard Facilities). Generally the property being rented is transformers and switch gear for a second or third point of service option.
- (4) This allocation is based on the total amount of easements in the plant accounts at 12/31/17. It is calculated as follows:

Total Distribution Easements in Plant	\$ 20,959,135	21.16%
Total Transmission Easements in Plant	78,094,500	78.84%
Total Easements in Plant	\$ 99,053,635	100.0%

(5) Represents rent from subleasing of office space. The allocation is based on 2017 Salaries and Wages - adjusted to exclude A&G.

 Distribution
 85.94%

 Transmission
 14.06%

 Total
 100.0%

(6) Represents the income from 3rd party use of fiber optic cable. Allocated based on Communication Equipment Allocator.

 Distribution
 63.79%

 Transmission
 36.21%

 Total
 100.0%

(7) In 2017, rent billings to associated companies and revenues associated with the leasing of electric plant to third parties were recorded as "Rent from Electric Properties". The Allocation based on 2017 Salaries and Wages - Note (5).

# ATTACHMENT 6 ITEMIZATION OF ACCOUNT 456

### Commonwealth Edison Company Account 456 - Other Electric Revenues 2017 Actual

- 1		$\sim$
L	_11	ıc

No.	Subaccount	Description		Distribution	Transmission	Other	Total
	(A)	(B)		(C)	(D)	(E)	(F)

#### Notes:

(1) Transmission portion calculated using allocator on Attachment 11. 13.54%

- (2) All miscellaneous service revenues are assigned 100% to Distribution & Customer due to the nature of the product/service.
- (3) Represents income from 3rd party fees for lease applications. Allocated based on direct assignment of rental income from property leases to the plant account identification of leased properties.
- (4) Fees from "interval data request services" special meter readings.

#### Notes

- A Electric portion only
- **B** Line 16, for the Reconciliation, includes New Transmission Plant that was actually placed in service weighted by the number of months it was actual Line 17 includes New Transmission Plant to be placed in servcie in the current calendar year that is not included in the PJM regional Transmission F (time-weighted) as shown on Attachment 6.
- C Includes Transmission portion only. At each annual informational filing, Company will identify for each parcel of land an intended use within a 15 year
- D Includes all EPRI Annual Membership Dues
- E Includes all Regulatory Commission Expenses
- F Includes Safety related advertising included in Account 930.1
- G Includes Regulatory Commission Expenses directly related to transmission service, RTO filings, or transmission siting itemized in Form 1 at 351.h.
- **H** CWIP can only be included if authorized by the Commission.
- I The currently effective income tax rate where FIT is the Federal income tax rate; SIT is the State income tax rate, and p = the percentage of federal income tax deductible for state income taxes.
- J ROE will be supported in the original filing and no change in ROE will be made absent a filing at FERC.
  - PBOP expense is fixed until changed as the result of a filing at FERC.
  - Depreciation rates shown in Attachment 9 are fixed until changed as the result of a filing at FERC.
  - If book depreciation rates are different than the Attachment 9 rates, ComEd will provide workpapers at the annual update to reconcile formula depreciation expense and depreciation accruals to Form No. 1 amounts.
- K Education and outreach expenses relating to transmission, for example siting or billing
- L As provided for in Section 34.1 of the PJM OATT; the PJM established billing determinants will not be revised or updated in the annual rate reconcili
- M Amount of transmission plant excluded from rates per Attachment 5.
- N Outstanding Network Credits is the balance of Network Facilities Upgrades Credits due Transmission Customers who have made lump-sum paymer towards the construction of Network Transmission Facilities consistent with Paragraph 657 of Order 2003-A.
  - Interest on the Network Credits as booked each year is added to the revenue requirement to make the Transmisison Owner whole on Line 155.
- O Payments made under Schedule 12 of the PJM OATT that are not directly assessed to load in the Zone under Schedule 12 are included in Transmission O&M on Line 56. If they are booked to Acct 565, they are included on Line 59.
- P Securitization bonds may be included in the capital structure.
- Q Equity and debt ratios will be the ratios determined by the actual capital structure and the specified calculation processes of the formula, except that period May 1, 2007 through May 31, 2009 the formula produces an equity ratio exceeding 58.0%, the formulaic value at Line 119 shall be manually and the formulaic value at Line 117 shall be manually set to 42.0% less the percentage shown at Line 118.
  - If, during the period June 1, 2009 through May 31, 2010, the formula produces an equity ratio exceeding 57.0%, the formulaic value at Line 119 sha set to 57% and the value at Line 117 shall be manually set to 43.0% less the percentage shown at Line 118.
  - If, during the period June 1, 2010 through May 31, 2011, the formula produces an equity ratio exceeding 56.0%, the formulaic value at Line 119 sha set to 56% and the value at Line 117 shall be manually set to 44.0% less the percentage shown at Line 118.
  - If, during any period following May 31, 2011, the formula produces an equity ratio exceeding 55.0%, the formulaic value at Line 119 shall be manual and the formulaic value at Line 117 shall be manually set to 45.0% less the percentage shown at Line 118.

#### **Criteria for Allocation:**

- A Other taxes that are incurred through ownership of plant including transmission plant will be allocated based on the Gross Plant Allocator. If the taxes are 100% recovered at retail they shall not be included.
- B Other taxes that are incurred through ownership of only general or intangible plant will be allocated based on the Wages and Salary Allocator. If the taxes are 100% recovered at retail they shall not be included.
- C Other taxes that are assessed based on labor will be allocated based on the Wages and Salary Allocator.
- D Other taxes except as provided for in A, B and C above, that are incurred and (1) are not fully recovered at retail or (2) are directly or indirectly related to transmission service will be allocated based on the Gross Plant Allocator; provided, however, that overheads shall be treated as in footnote B above.
- E Excludes prior period adjustments in the first year of the formula's operation and reconciliation for the first year.

#### Attachment 3 - Revenue Credit Workpaper

#### Accounts 450 & 451

1 Late Payment Penalties Allocated to Transmission \$ 3,411,869

#### **Account 454 - Rent from Electric Property**

2 Rent from Electric Property - Transmission Related 11,229,825

#### Account 456 - Other Electric Revenues (Note 1)

3 Transmission for Others (Note 3) 7,443,542

4 Schedule 1A 22,776,913

Net revenues associated with Network Integration Transmission Service (NITS) for which the load is not included in the divisor (difference between NITS credits from PJM and PJM NITS charges paid by Transmission Owner) (Note 3)

6 Point to Point Service revenues for which the load is not included in the divisor received by Transmission Owner

7 PJM Transitional Revenue Neutrality (Note 1)

8 PJM Transitional Market Expansion (Note 1)

9 Professional Services

10 Revenues from Directly Assigned Transmission Facility Charges (Note 2)

11 Rent or Attachment Fees associated with Transmission Facilities

12 Gross Revenue Credits (Sum Lines 1-11) \$ 44,862,149

- 13 Amount offset from Note 3 below
- 14 Total Account 454 and 456
- 15 Note 1: All revenues related to transmission that are received as a transmission owner (i.e., not received as a LSE), for which the cost of the service is recovered under this formula, except as specifically provided for elsewhere in this Attachment or elsewhere in the formula will be included as a revenue credit or included in the peak on line 174 of Appendix A.
- Note 2: If the costs associated with the Directly Assigned Transmission Facility Charges are included in the Rates, the associated revenues are included in the Rates. If the costs associated with the Directly Assigned Transmission Facility Charges are not included in the Rates, the associated revenues are not included in the Rates.

Note 3: If the facilities associated with the revenues are not included in the formula, the revenue is shown here, but not included in the total above and explained in the Cost Support. For example revenues associated with distribution facilities. In addition Revenues from Schedule 12 are not included in the total above to the extent they are credited under Schedule 12.

For CWIP: Beginning is the line 17 for that year Depreciation is not used Ending is the same as Beginning Revenue is Ending times line 16 for the current year

On the formulas used in the Columns for lines 22+ are as follows
For Plant in service: (first year means first year the project is placed in service)
\*\*Beginning' is the investment on line 17 for the first year and is the "Ending" for the prior year after the first year
\*\*Depreciation' is the annual depreciation in line 18 divided by twelve times the difference of thirteen minus line 19 in the first year and line 18 thereafter if "no" on line 13. "Depreciation" is "O' (zero) if "Yes" on line 13
\*\*Chanding 1's Beginning' liss: "Depreciation"
\*\*Revenue is "Ending" times line 16 for the current year times the quotient line 19 divided by 13 plus "Depreciation" for the first year and "Ending" times line 16 plus "Depreciation" thereafter

Note:
The five year hold harmless period related to the Constellation merger ended effective March 12, 2017.
The five year hold harmless period related to the PHI merger consummated effective March 23, 2016 is scheduled to terminate March 23, 2021.

#### Attachment 15 Addendum Prior Filing Adjustments Workpaper Page 1 of 6

#### Summary of Merger Exclusion - Allocator Impacts

Line			Revenue Requirement	Accrued	Total Rev Req
No.	Description		Reduction	Interest	Reduction
	A		В	С	D
1	2012 Merger and CTA Costs	(1)	(\$30,138)	(3,129)	(\$33,267)
2	2013 Merger and CTA Costs	(1)	(\$175,666)	(15,234)	(\$190,900)
3	2014 Merger and CTA Costs	(1)	(\$84,061)	(5,852)	(\$89,913)
4	2015 Merger and CTA Costs	(1)	(\$32,854)	(1,725)	(\$34,579)
5	2016 Merger and CTA Costs	(1)	(\$7,625)	(289)	(\$7,914)
6	Total Reductions	-	(\$330,344)	(\$26,230)	(\$356,574) (2)

<sup>(1)</sup> Represents revenue requirement adjustment (reduction) due to recalculation of allocators to remove impact of merger costs within lines 2, 3, 6 and 7 in Appendix A of each respective year's formula

<sup>(2)</sup> See Attachment H-13A 2018 Forecast, Schedule 6, Excel Line 161, Column K.

Removal of Purchase of Receivables - Combined Billing (PORCB) Software from Rate Base - 2017 Actual (1)

Line No.	Description (A)	 Calculation (B)	F	risdictional Rate Base justment (1) (C)	Red	evenue quirement Impact (D)
1	Gross Plant Related to PORCB	\$ 16,505,132				
2	Reduction to Gross Plant	\$ (16,505,132)	\$	(2,246,348)		
3	Reduction for Total Book Amortization as of 12-31-2017	\$ 16,504,912		2,246,319		
4	Tax Rate	40.606%				
5	Deferred Taxes ((Line 9 - Line 6) * Line 8)	\$ 89		12		
6	Reduction to Rate Base (Line 2 + Line 3 + Line 4)		\$	(17)	\$	(1)
7	Income Tax Component (2)					(1)
8	Reconciliation Year Book Amortization	\$ (348)				(47)
9	Total decrease to the reconciliation revenue requirement (See Attachment H-13A 2018 Forecast, Schedule 6, Excel Line 124, Column K.				\$	(49)

100% of PORCB costs are removed from the Distribution filing, per ICC Docket #14-0313. This adjustment is necessary as the Transmission formula automatically allocates Intangible Plant to Transmission using the Wages & Salary allocator of 13.61%.

#### (2) Calculation:

$(T/1-T)$ * Investment Return * $(1-(WCLTD/ROR))$ , where $T=1 - \{[(1-SIT)*(1-FIT)]/(1-SIT*FIT*p)\}$ , where	
FIT=Federal Income Tax Rate	35.00%
SIT=State Income Tax Rate or Composite	8.63%
p=(percent of federal income tax deductible for state)	0.00%
T	40.61%
T/(1-T)	68.37%
Weighted Cost of Debt	2.02%
ROR=Rate of Return on Rate Base	8.32%
68.37% * (\$1) * (1-(2.02%/8.32%)) =	(\$1)

#### Notes:

- (1) Represents Exelon Executive Committee compensation cost allocated to ComEd and the ComEd CEO.
- (2) The exclusion for Exelon BSC Executives was based on amounts allocated to ComEd based primarily using the Modified Massachusetts Formula.
- (3) Excludes the portion of ComEd Executive LTPSAP already excluded in C-2.4.
